SUMMARY

Final-year Software Engineering student at Adama Science and Technology University (ASTU) with a passion for building modern, scalable, and user-centered software. Experienced in developing web, mobile, and desktop applications using React, TypeScript, Node.js, Express, and PostgreSQL. Primary interests include Full-Stack Engineering, Frontend Development, and UI/UX Design, with a focus on transforming complex problems into clean, intuitive digital experiences. Continuously expanding expertise in backend systems, software architecture, and performance optimization while maintaining strong focus on usability, accessibility, and maintainable code.

EDUCATION

B.Sc. in Software Engineering Adama Science and Technology University (ASTU)	Expected 2027
• Coursework: Software Architecture, Full-Stack Development, Mobile Application Development, Database Systems	
Ethiopian Preparatory Education (Grade 11–12) Goro Preparatory School	Completed
Secondary Education (Grade 9–10) Goro Secondary High School	Completed
Primary Education (Grade 8) Adama No. 5 Elementary School	Ministry Examination Completed

EXPERIENCE

Data Encoder Kebele 01	Aug 2022 – Sep 2022
• Assisted in digitizing community registry records	
• Maintained accurate administrative data entry	
• Organized and verified public service records	
• Supported local administrative documentation and record management	

PROJECTS

Inventory Management System (IMSO) React · TypeScript · Node.js · Express · SQLite
• Designed and developed a full-stack inventory management platform for small businesses with an offline-first architecture
• Implemented inventory & stock management, sales workflow, product management, SQLite integration, and a responsive dashboard with modular architecture
Hagere Tech Solutions Corporate Website
• Designed and developed a modern corporate website for a technology startup featuring responsive layouts, service presentation, and professional branding
FoodLens React Native · TypeScript
• Mobile application that helps users discover restaurants based on preferences, budget, and location through an intuitive mobile interface
My Analytic Android Application
• Visualizes smartphone usage data and presents meaningful insights through interactive dashboards
Finance Tracker Personal Finance Application
• Manages income, expenses, debts, and financial summaries
Focus Session Java Desktop Application

- Productivity application featuring study timers, quizzes, and flashcards to improve learning efficiency

Location Tracker | *Web-based Mapping Application*

- Utilizes geolocation and mapping APIs for real-time location visualization

Buy Car | *Vehicle Marketplace Platform*

- Enables users to search and compare verified automotive listings

TECHNICAL SKILLS
